

## Course description

# G3911e

# ACS580 standard control program specific features, Internet course

## Course type

Internet course

## Course Duration

The course duration is approximately 15 minutes.

## Course Goal

The goal of this course is for you to familiarize yourself with the software features specific to the ACS580 standard control program.

## Student Profile

This course is intended for people who use the software of ACS580 drives, such as electricians, technicians and engineers.

## Prerequisites

- G391e – General purpose drives ACS580 series offering, Internet course
- G3902e – ACS580 software features, advantages and benefits, Internet course
- Recommended: G374e – All-compatible panel fundamentals, Internet course
- Recommended: G375e – Drive composer entry fundamentals, Internet course
- An Internet connection. The recommended browser is Microsoft Internet Explorer.

## Notes

If you have no experience of working with drives, it is highly recommended to take a hands-on course in addition to this course, to be able to utilize the drive to its full potential.

## Course Objectives

Upon completion of this course, you will be able to:

- Describe the basics of the standard drive firmware
- Describe the features of the different menus
- Describe the benefits of the motor control functions

## Main Topics

- Different control units
- Features of the different menus
- Motor control functions

## Low voltage drives training
